INTRODUCTION

DE-KRIS ENERGY LTD is a dynamic and forward-thinking energy and logistics company driven by excellence, integrity, and innovation.

We specialize in providing reliable energy solutions and seamless logistics services across Nigeria and beyond. With operations spanning haulage, vessel and tanker charter, offshore supply, retail marketing, and exploration, DE-KRIS ENERGY LTD stands as a trusted name in the oil and gas value chain.

Our commitment is to deliver world-class energy services while maintaining the highest standards of safety, efficiency, and professionalism.

ABOUT us

Mission

To provide dependable, efficient, and innovative energy and logistics solutions that drive industrial and economic growth while ensuring customer satisfaction and operational excellence.

Vision

To become Africa's leading indigenous energy and logistics company, recognized for reliability, innovation, and sustainable impact in the global energy landscape.

Brand Promise

We promise to deliver energy solutions that power industries, communities, and possibilities with integrity, efficiency, and excellence at every step.

Core Values

INTEGRITY

We uphold the highest ethical standards in every transaction and partnership.

EXCELLENCE

We pursue superior performance and service delivery in all our operations.

INNOVATION

We embrace creativity and technology to enhance efficiency and customer experience.

RELIABILITY

We deliver consistent results our clients can always depend on.

SAFETY

We prioritize safety in our operations, ensuring the protection of lives, assets, and the environment.

SUSTAINABILITY

We operate with a commitment to environmental responsibility and long-term value creation.

Our Products & Services

At DE-KRIS ENERGY LTD, our operations are built around efficiency, trust, and the delivery of quality energy solutions. We offer a broad range of services designed to support the oil and gas value chain – from supply and transportation to storage, distribution, and exploration. Each service is tailored to meet client-specific needs, guided by our dedication to safety, timeliness, and excellence.

1. Haulage Services

Our haulage arm provides safe and reliable transportation of petroleum products across Nigeria. We manage a well-maintained fleet of trucks equipped to deliver Automotive Gas Oil (AGO), Premium Motor Spirit (PMS), and Dual Purpose Kerosene (DPK) efficiently and securely.

Beyond product movement, we also engage in truck sales and leasing, giving clients the flexibility to expand their operations without heavy capital investment. Every delivery is handled with strict adherence to safety regulations and environmental standards, ensuring smooth logistics and client satisfaction.

2. Vessel Charter Services

Our marine logistics division is at the heart of our offshore operations.

We provide a wide range of vessel charter services, including:

- a. Tug Boat Charter for towing and maneuvering vessels at ports and terminals.
- b. Barge Charter — both self-propelled and non-self-propelled — for transporting heavy cargo, petroleum products, and construction materials across waterways.
- c. Tanker Vessel Charter for large-scale product movement within coastal and offshore regions.
- d. Service Boat Charter for offshore supplies, crew movement, and equipment transport.

Each vessel is operated and maintained by experienced professionals who ensure operational efficiency and safety at all times.

3. Fender Hire

We provide high-quality marine fenders designed to protect vessels and port structures during berthing or cargo transfer operations.

Our fenders are tested for durability and performance, offering clients dependable solutions that reduce impact risks and prolong equipment lifespan.

Whether for long-term leasing or short-term projects, our fender hire service ensures reliable support for your offshore and onshore activities.

4. Shipping Services

At DE-KRIS ENERGY LTD, we understand that seamless shipping operations are critical to business success.

Our shipping services cover everything from cargo handling to freight management and documentation. We provide professional coordination between shippers, vessel owners, and port authorities to ensure that every consignment is delivered on schedule.

With our emphasis on transparency, communication, and compliance, clients enjoy a hassle-free experience that meets both local and international maritime standards.

5. Retail Marketing

We operate a growing network in the retail marketing of petroleum products.

Our focus is on delivering high-quality fuels to consumers and businesses through efficient distribution channels. By combining fair pricing with dependable supply, we help power industries, businesses, and homes across Nigeria.

Our retail strategy is built on trust, transparency, and customer satisfaction.

6. Supply and Trading

Our supply and trading operations bridge the gap between energy producers and end users. We source, trade, and distribute refined petroleum products while maintaining strict quality control and compliance with regulatory standards.

Through strategic partnerships and an efficient logistics framework, we ensure the timely availability of products such as AGO, PMS, and DPK to our clients in both the private and public sectors.

7. Terminals and Storage

We offer safe, secure, and scalable storage solutions for petroleum products and other energy commodities. Our storage facilities are designed to meet international safety standards and ensure the integrity of every product in our care.

By combining modern infrastructure with real-time monitoring systems, we guarantee operational safety, environmental responsibility, and product preservation throughout the storage cycle.

8. Supply and Distribution

Our supply and distribution services ensure that energy products reach their destinations promptly and safely. \Leveraging our logistics expertise, we connect refineries, depots, and consumers across Nigeria's regions with minimal delay.

We emphasize reliability, route optimization, and responsive customer service — ensuring that clients experience smooth operations and uninterrupted supply.

9. Exploration and Production

As part of our long-term growth vision, DE-KRIS ENERGY LTD is actively engaged in exploration and production of oil and gas resources. We partner with key industry stakeholders to identify, develop, and operate promising energy assets.

Our approach prioritizes environmental sustainability, technological innovation, and the highest industry standards. Through these operations, we aim to contribute meaningfully to Nigeria's energy independence and economic development

Why Choose Us

PROVEN EXPERTISE

Led by experienced professionals with a strong background in energy, logistics, and management.
